### EDUCATION

University of Cincinnati  
Bachelor of Science  
Industrial Design  
Cum Laude  
Class of 2023

### SKILLS

#### Adobe Suite

- Photoshop
- Illustrator
- InDesign
- Lightroom
- XD

#### Microsoft

- Word
- Outlook
- Excel
- OneDrive
- Teams

#### Ideation

- Sketchbook Pro
- Fusion 360
- ProCreate
- KeyShot 10
- Gravity Sketch
- Midjourney

#### Traditional

- Sketching
- Rendering
- Prototyping
- Model Making
- Ideation
- Wood Working
- Photography

### EXPERIENCE

#### Stress Engineering/Force-4

Product Design Intern  
Aug. 2022 - Dec. 2022

Creating visualization sketches for concept development.  
Generating prototypes with CAD modeling and 3D-printing.  
Conducting maintenance on prototyping equipment.  
Producing generative designs with image AI and CAD ideation.  
Collaborating with team to create concepts for potential clients.

#### Catalyst Product Development Group

Product Design Intern  
Jan. 2022 - Apr. 2022

Participating in group brainstorming and sketching groups.  
Creating design concepts and illustrations for clients.  
Generating physical mock-ups for form and function reference.  
Designing new company graphic assets and branding language.  
Communicating with clients on their vision for a project.

#### Enerpac Tool Group

Product Development Intern  
May 2021 - Aug. 2021

Sketching and generating concepts for existing product lines.  
Expanding and experimenting with new visual brand languages.  
Rebranding products from new companies acquired by Enerpac.  
Participating and presenting in meetings and design critiques.  
Learning how to service and operate Enerpac products safely.

#### Tell Design LLC

Toy Development Intern  
Aug. 2020 - Dec. 2020

Developing concept for Nerf remote control vehicle.  
Understanding and applying Nerf brand language and technology.  
3D-modeling mechanical components of injection molded parts.  
3D-printing and assembling parts to create functional prototypes.  
Creating high quality renderings of Fisher Price and Nerf products.

#### Fossil: Diesel Brand

Watch Design Intern  
Jan. 2020 - April 2020

Generating lineart and colorways of new and existing watch designs.  
Creating product specifications including proper color/material codes.  
Communicating with factories regarding sample manufacturing.  
Presenting yearly SKU catalogs with seasonal themes and concepts.  
Participating in sample reviews to ensure quality of manufacturing.  
Collaborating with multidisciplinary teams.
